EDUCATION

Oct. 2024 – Present	University of Freiburg <i>M.Sc. Computer Science (AI Specialisation Path)</i> • Grade: 1.7 (gut) • Lectures: ML, DL, AI, Computer Vision, Advanced DL, Reinforcement Learning, AutoML	Freiburg, Germany
Oct. 2019 – July 2024	Sabancı University <i>B.Sc. Computer Science – Minor in Finance</i> • Grade: 1.4 (sehr gut) – GPA 3.74/4.0 (Minor GPA 3.8/4.0) • Dean's High Honor List; Metin Sabancı Excellence Scholarship (full, 100%)	Istanbul, Turkey

WORK EXPERIENCE

May 2025 – Present	Endress+Hauser Group <i>Frontend Developer (Werkstudent)</i> Built and enhanced User Management Flow features for internal customer-service tools. Tech Stack: Java, TypeScript, Vaadin, Tomcat	Freiburg, Germany
July 2023 – Sep. 2023	Amadeus <i>Software Developer Intern</i> Developed SOAP/PL-SQL web services and optimised Oracle DB LOB storage efficiency. Tech Stack: PL/SQL, SOAP API, Oracle DB	Istanbul, Turkey
Sep. 2022 – Dec. 2022	Logo Yazılım <i>Test Automation Specialist</i> Built an end-to-end automation project to streamline the QA team's testing processes. Tech Stack: JavaScript, Katalon Studio	Istanbul, Turkey

PROJECTS

Oct. 2025 – Present	DreMa Project Extension Extended the DreMa framework to deploy a Gaussian-Splatting world model on a physical Franka Panda robot, with an automated ROS pipeline for data collection and 3D reconstruction. Tech Stack: Python, CUDA, Open3D, OpenCV, Gaussian Splatting, SAM 3, ROS GitHub	University of Freiburg
July 2025 – Aug. 2025	SD LoRA Mensa Fine-tuned a Stable Diffusion model with LoRA on a custom dataset of cafeteria dishes, using dedicated concept tokens to generate images in the learned style. Tech Stack: Python, PyTorch, Stable Diffusion, LoRA, HF Diffusers GitHub • Poster	University of Freiburg
July 2025 – Aug. 2025	ExpertRL-HPO Designed and implemented an AutoML pipeline for text classification, combining a meta-feature-aware DQN agent with multi-fidelity Bayesian optimisation (BOHB) for hyperparameter search. Tech Stack: Python, PyTorch, DQN, BOHB, SMAC3 GitHub • Poster	University of Freiburg
Oct. 2023 – June 2024	Exam Scheduling System Web-based system for generating conflict-free university exam timetables, developed as the Bachelor's graduation project. Tech Stack: SQL, Node.js, Vue.js, JavaScript	Sabancı University

SKILLS

Python, JavaScript/TypeScript, PyTorch, Hugging Face, CUDA, OpenCV, Open3D, Docker

CERTIFICATIONS

2025	Deep Learning Specialization – DeepLearning.AI (5-course series)
2024	Supervised Machine Learning: Regression & Classification – Stanford & DeepLearning.AI

LANGUAGES & INTERESTS

Languages	Turkish (Native) • English (C1) • German (B1)
Interests	Hiking • Photography • Gaming • Reading
